

- Restoring Your Local POGG -

Peace, Order & Good Governance

Coming down the Pike...

1. Seated elected officials will be sworn in under their public oath. This grants geographical trustee authority. If they refuse, there will be a public election to replace them (see #6):
Mayor becomes Chief Executor of local Public Trust(s)
Councillors to form Board of Trustees

Lawful Redemption: All liability for previous negligence due to ignorance will be waived.
Now in full personal liability for harm and/or loss caused.

2. **“Re-public”** the governing institution:
 - a. **Fiduciary Authority Restored:** Treasury established. All local taxes, fees & securities will be diverted to trust accounts separate from CITY, WEF & central banking system.
 - b. **Judicial Authority Restored:** Sheriff appointed, equity courts established, peace officers sworn. (new oath for municipal police and By-law if they choose to remain)
 - c. **Regulatory Control Restored:** Public-private-international partnerships terminated; Forensic audit on all accounts/contracts/assets; “Pause” on all present CITY By-laws, termination of UN SDG target commitments made without right.
3. **Unincorporate** “all things local” from the **UN CITY STATE** (i.e., Municipalities).
Fraud avoids/nullifies past, present and future obligations.
4. All **Municipal service contracts** reviewed; necessary services maintained (water, sewer, transit, health, fire, police, schools etc.), but paid or discharged by Public Treasury **ONLY**.
5. **“Mentor counsellors”** (local men & women wanting to help restore their local government) work alongside their public trustees (Ward Counsellors) as qualified mentors for the “re-public” transition **OR** to step in and sworn as their replacement in case of resignation.

Ward Counsellors and mentors will determine and establish **Town Hall** locations, size and services. Immediate Treasury funds available for housing, food, health care, seniors, small businesses, daycare/education, transportation, cost of living assistance etc.

6. A **new public voting system** is in development. Constituents will elect/appoint their representatives directly, not by proxy for the resident, body corporate or legal person.
