

# Ending the Public-Private Partnership (PPP) Fraud

By Shelagh McFarlane

In September 2023, I authored **The POGG Primer: Ending the PPP Fraud**. POGG stands for “Peace, Order & Good Governance.”

The POGG doctrine states that governments must always create laws in harmony with “Peace, Order, and Good Governance.” They should not use their authority to poke you or create **15 MINUTE CITIES for the UN**.

## A Brief Introduction to PPPs

I learned about these global entities in 2014 when I ran for Ward 3 councillor in Kincardine. Ontario Power Generation was trying to bury nuclear waste beside our Great Lakes. I discovered a PPP agreement Mayor Larry Kraemer made in a “Secret Mayor Meeting.”

“Public-private partnerships” are UN (United Nations) legal “creatures” used to install a **de facto global government** in lieu of rightful sovereign powers. They masquerade as “legitimate” and dupe your officials to assume control over private property and defraud (remove) the “public.”

In 2022, I ran for Mayor of Guelph to stop our **GLOBAL Mayor**, Cam Guthrie, from signing international agreements with pharmaceutical companies to perform vaccine clinical trials on the **CITY’s “incorporated inhabitants.”**

Although I didn’t win, I learned how they flip the jurisdiction from a local council to a UN field office, which is accomplished through election interference and issuing a corporate oath with the appearance of it being lawful and public. Mayors and councillors are put under a UN Declaration to act in three legal capacities—public, private, and international.

The CITY Clerk, Solicitor, and Chief Administrative Officer (CAO) are co-conspirators in the UN hijacking of our local officials by asserting that they (the City Clerk and cohorts) have the authority to issue the oaths and provide them with legal advice.

You need to know about this deception because their signatures can put a needle in your arm and bankrupt your business. The process is flawed with **FRAUD**. They CAN’T work for you because they are international UN Agents commissioned to implement the Global Agenda for Sustainability—for now.

## How I created The POGG Primer

In early September 2023, I came across a deputation by Angel Godsoe and Kerstin Kelly at a CITY of Kawartha Lakes Council Meeting. They were addressing a rezoning by-law consolidation that no one in the area knew about. The rezoning would drastically restrict land use and terminate all food processing in the area. I recognized the Municipality’s “tactics,” so I drove up to see how I could help. I started drafting The POGG Primer as a short, educational booklet summarizing 30 years of the UN takeover as simply as possible.

## Implementing POGG Can End the UN Local Occupation

The Primer explains how UN public/private partnerships take over your town and how your Mayor is fraudulently “upgraded” to international status (i.e., a “**Strong Mayor**”) without your knowledge or consent.

I include excerpts of the UN instructional guides delivered to your town and a summary of the 2022 Trucker Convoy in Ottawa. The Convoy was instrumental in **proving** that the UN and WEF had, as Klaus Schwab boasted, penetrated all levels of Canadian government, and there was de facto possession of our sovereign powers. The truckers exposed the UN coup d’état as the world

watched in shock. God bless Canadian truckers.

## How the Primer Can Help Your Local Officials Restore POGG

In a global-to-local takeover, our only solution is at the local level, and exciting things are happening behind the scenes!

Seated “public” officials will need to “re-public” the governing institution and **unincorporate** “all things

tion and designing a new open voting system. We WILL Restore Justice and Equity for ALL in Canada.

The POGG Primer (and future editions) will help officials realize it is their **DUTY** to “correct this legal mistake.” They **must take back** local regulatory, judicial, and financial control so people can get immediate relief from this tyranny.

**So Let’s Go, Canadians! Start to Take Back Your Towns!** We are at the beginning of some interesting times!

National groups are organizing and getting ready to help with the transition back to POGG. We have the solution now — Restore the Oath. This tyrannical foreign occupation is OVER when we say it is.

Every town will soon have the lawful power to:

**1. Restore** governing autonomy and independence: End public-private-international partnerships; the Mayor will be lawfully sworn in as **Head of Local Government**, no longer as UN Head of Council.

**2. Regroup** officials in their wards: establish town halls with OPEN, full public access to elected officials who will provide urgent funding for social needs, support for local small businesses, cost of living assistance, and immediate attention to daycare and education matters.

**3. Restart** their local agenda and constitution: establish an independent treasury and sworn peace officers to ensure POGG, lawful protection, and essential local services.

Thank you, Canada! Let’s Do This!

local” from the UN CITY STATE. Fraud nullifies all. If they refuse, there will be an election to replace them, and local taxes and charges will be diverted to trust accounts separate from the central banking system. No one is obligated to participate in fraud or obey de facto possession of sovereign powers.

Groups are organizing “shadow councils” that will be qualified replacements in case of a sudden resigna-

## 100,000+ Signatures Required! Petition for Canada to Exit the UN and the WHO

e-4623 (Foreign affairs)  
E-petition initiated by Doug Porter from Burnaby, British Columbia

### Petition details Petition to the House of Commons in Parliament assembled

Whereas:

- Canada’s membership in the United Nations (UN) and its subsidiary organizations, (e.g. World Health Organization (WHO)), imposes negative consequences on the people of Canada, far outweighing any benefits;
- Canada’s agreement to participate in the UN/WHO comprehensive “Agenda 2030” undermines national sovereignty and personal autonomy;
- Agenda 2030 and its operational “Sustainable Development Goals” (SDG), Comprehensive Sexuality Education (CSE), UN Judicial Review, International Health Regulations (IHR), One Health and similar programs are being rapidly implemented, absent the awareness and consent of the People or their elected representatives;
- SDGs have negative impacts on potentially every aspect of life, including religious and cultural values, familial relations, education, nutrition, child development, property rights, economic and agricultural productivity, transportation, travel, health, informed consent, privacy

and physical autonomy;

- Under the CSE, publicly funded educational institutions are damaging children while concealing information from parents. Normalization of sexual values and activities with regard to children are endorsed and enforced, beginning at birth;
- Agenda 2030 and secretly negotiated amendments to the IHR could likely impose unacceptable, intrusive universal surveillance, violating the rights and freedoms guaranteed in the Canadian Bill of Rights and the Charter of Rights and Freedoms; and
- These sweeping impacts on public and private life serve the interests of UN/WHO and unelected private entities (e.g. World Economic Forum, Bill and Melinda Gates Foundation, International Planned Parenthood Federation, etc.), while diminishing the health rights and freedom of Canadians.

We, the undersigned, **Citizens and Residents of Canada**, call upon the **House of Commons in Parliament assembled** to Urgently implement Canada’s expeditious withdrawal from the UN and all of its subsidiary organizations, including WHO.

## Save Canada from the Globalist Agenda!

Member of Parliament Leslyn Lewis is spearheading a petition demanding our federal government exits the U.N. & W.H.O., citing concerns over national sovereignty and personal freedoms. When a house of commons petition receives more than 100,000 signatures, then Parliament will consider it for debate.

Join 43k+ Canadians and sign the petition at the House of Commons:
